# CLOUD TECHNOLOGY SOLUTIONS

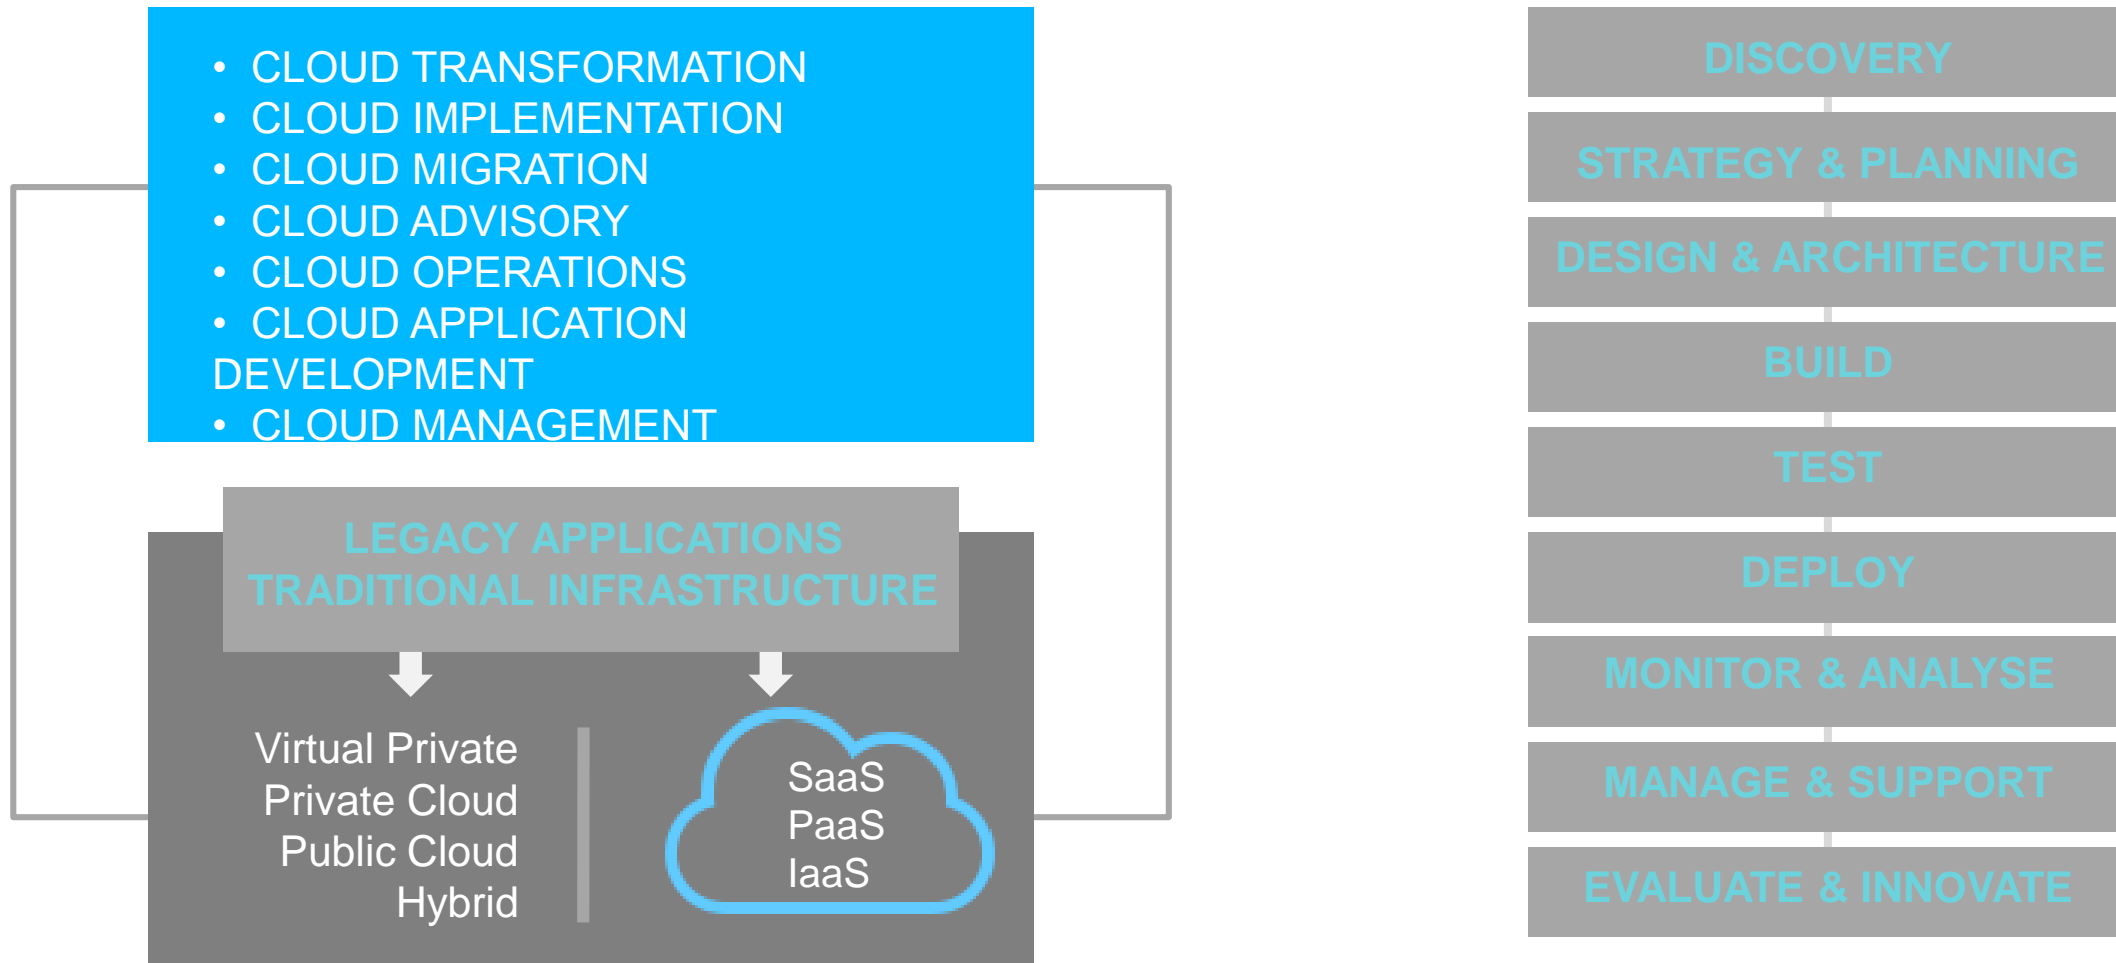

---

Our ever-changing world calls for the implementation of new technologies aimed to boost and simplify the workflow of any business. Cloud technologies are considered to be one of the most warm-welcomed innovations as they streamline and improve efficiency of any digital solution. Still, the launch of sophisticated yet effective improvements require united effort of many experts in different fields who can make your transition to new technologies smooth and natural. We are more than sure that housing a team of top-class experienced professionals working on proper planning, improving, using and maintaining innovative technologies is a key element of success here.

Copler, being a result of amalgamation of two big Ukrainian companies - HR service provider Smart Solutions and outsourcing contact centre Simply Contact—has both experience and knowledge that enable its experts to find customized and the best possible solutions for every case. Such customized approach is the best guarantee that our clients will get exactly the services, toolsets and staff they need. Our project managers will guide you through all stages of the process to make sure that all changes and improvements work as they should.

# SUPPORTING THE FULL CLOUD PROGRAMME LIFECYCLE
